A Core Competency Framework for International Health Consultants
A Core Competency Framework for International Health Consultants
ACKNOWLEDGEMENTS

We would like to thank members of the Validation Panel and Working Group (listed below) for their contribution to the development of the competency framework. A special thank you is extended to Margaret Murphy, Independent Consultant, for her work on the first draft.

We gratefully acknowledge the financial supported provided by the Burdett Trust for Nursing, United Kingdom.

Validation Panel Members
Panel members were selected based on their expertise in the area of international health consultation.

Fadwa Affara, Independent Consultant, Nursing Education and Regulation Policy.
James Buchan, Queen Margaret University.
Gilles Dussault, Instituto de Higiene e Medicina Tropical Universidade Nova de Lisboa.
Christopher H. Fox, International Association for Dental Research.
Dame Deirdre Hine, British Medical Association.
Martin Hobdell, FDI World Dental Federation.
Henri Manasse, American Society of Health-System Pharmacists.
Maricel Manfredi, Independent Consultant, Nursing Human Resources.
Olive Munjanja, Independent Consultant, Health, Human Resources and HIV/AIDS.
John O’Keefe, Canadian Dental Association.
Ramin Parsa-Parsi, German Medical Association.
Elizabeth Percival, Independent Consultant, Nursing Development.
Marion Schaefer, Institute of Pharmacology at Charité Universitätsmedizin Berlin.
Jos van den Heuvel, Netherlands Institute for Health Services Research.

Working Group Members
David Benton, International Council of Nurses.
Habib Benzian, FDI World Dental Federation.
Patricia Caldwell, International Council of Nurses.
Otmar Kloiber, World Medical Association.
Myriah Lesko, International Pharmaceutical Federation.
ABOUT THE WORLD HEALTH PROFESSIONS ALLIANCE

Established in 1999, the World Health Professions Alliance (WHPA) brings together dentistry, medicine, nursing, and pharmacy through their representative international organisations: the International Council of Nurses, the International Pharmaceutical Federation, the World Dental Federation and the World Medical Association. The Alliance, speaking for more than 23 million health care professionals worldwide, assembles essential knowledge and experience from the key health care professions. The WHPA aims to facilitate collaboration between key health professionals and major international stakeholders such as governments, policy makers and the World Health Organization. By working in collaboration, instead of along parallel tracks, the patient and health care system benefit.

To learn more, visit: www.whpa.org
We live in a globalised world, one in which national borders continue to shrink as we integrate economies and other aspects of societies. Today people, products, services, disease, social movements – indeed all aspects of society – readily cross borders. Health care is no exception. Migration, technology, trade agreements, costs, international cooperation and a variety of other factors spur the movement of people and services.

Health services everywhere are under increasing pressure due to political, economic, social and epidemiological forces. Developed and developing countries alike are being challenged by health workforce shortages, ageing populations, increasing population growth rates, and a growing burden of chronic and noncommunicable disease. As well, increasing numbers of people are seeking health care services in countries other than their own. As a result the past decade has seen a sharp rise in the health tourism movement whereby people travel to other countries to obtain care while also touring, vacationing and enjoying the attractions of the country they are visiting. A variety of people and nations are also engaged in providing services in other countries, giving rise to an increasing number and variety of international health consultants.

Today, consultants provide an array of health-related services domestically and internationally. These may include: health service and personnel planning; construction and management of new facilities; curriculum development for a specific disease; budget development; disaster preparedness or response to a major threat, such as Avian Flu; development of types of technology needed in a specific situation; or the establishment of quality assurance systems. In other words, consultants are engaged – either on an ad hoc or routine basis – in planning, assessing, implementing and evaluating health services in their own countries and abroad.

The number and variety of individuals falling into the international health consultants group is staggering. It includes individuals whose expertise lies in financial management, macroeconomics, health services planning and management, public health, epidemiology, human resources development, disease management, governance, standards development, education, primary health care and health technology, to name a few. As well, experts serve as consultants on both a voluntary and employed basis. They may work for large consulting firms or corporations, be independently employed, or be faculty members. They may work for professional associations, religious groups or national and international nongovernmental groups. Their clients are individuals, agencies or organisations involved in planning and/or delivering health care, interested nongovernmental organisations, advocacy groups, countries, United Nations’ agencies, global health initiatives (e.g. the Global Alliance for Vaccines and Immunization and the Global Fund to Fight AIDS, Tuberculosis and Malaria) or donors, such as governmental agencies, foundations, trusts, corporations, etc.

International consulting is increasingly becoming big business. With the rising variety and numbers it is more and more difficult for the potential client (or contractor where this is not the client) to find the best fit when faced with a range of consultants with varying credentials, experience, competencies and backgrounds. This
situation, coupled with the fact that more and more of our own members are interested in serving as or working with international consultants, led the World Health Professions Alliance to develop competencies for international health consultants.

These competencies serve to guide the individual, client and contractor. From the perspective of the client/contractor the competencies serve to:

- Set expectations and contract terms
- Benchmark informed decisions
- Negotiate contracts
- Monitor performance
- Evaluate project outcomes
- Assess qualifications
- Function in a transparent manner.

The competencies also have considerable benefit for the individual consultant and their employer. They are designed to assist in the consultant’s practice, professional development and employment conditions. They are meant to facilitate self assessment and aid in identifying areas for added professional development as well as assist with contract negotiations with the client and the employer. In addition to aiding transparency, they serve as a marketing tool for the individual and as a tool to help the consultant select associates and associate competencies when working with others.

This document presents a framework of competencies for international health consultants. The competencies are intended to be broad enough to be applied to international health consultants, regardless of their specific profession, yet specific enough to serve as a useful guide to those who wish to make use of health care consultation.

The competencies were derived from a review of the literature and a series of reviews from experts who serve as consultants, employers, and/or clients. They are meant to reflect the abilities common to health consultants whatever their specific discipline. WHPA expects that the competencies will be used and interpreted within the client context. Lastly, they are designed to guide, not to prescribe. Feedback on their use is most welcome.

SECTION TWO: DEFINITIONS AND ROLES

The following definitions and role description underpin the framework of competencies for international health consultants.

1. Definition of Consultant
A consultant is an expert qualified and experienced in a specific discipline or field to give advice or services to a person, organisation or government.

2. Definition of International Health Consultant
International health consultants are experts working in health services who have specialised knowledge, experience and personal attributes that qualify them to provide advice or services (other than direct care) beyond their home country.

3. Definition of Competence
Competence is a level of performance demonstrating the effective application of knowledge, skill and judgement (ICN 1997).

4. Definition of Cultural Competence
“Cultural Competence is a set of congruent behaviors, attitudes, and policies that come together in a system, agency or among professionals and enables that system, agency or those professionals to work effectively in cross-cultural situations” (Cross T, Bazron B, Dennis K & Isaacs M 1989).

5. Role of the International Health Consultant
In most instances the specific role of the consultant is dependent upon the agreements set out for the consultation. The breadth and depth of educational preparation and credentials, as well as practice experience in an international context, enable the international health consultant to have the expertise and accountability to provide services to clients in a country other than the consultant’s own.

The particular role of an international health consultant always incorporates an element of empowering the client. This requires that the consultant has knowledge about the country, its history and current situation, and exhibits sensitivity to the customs, traditions, interpersonal rituals and patterns of the country within which the consultation occurs or the country intended to benefit from the work.
Whether in Africa, Asia, America or any other part of the world, the context within which international health consultants implement their knowledge and skills is dynamic and constantly evolving. The services provided aim at achieving outcomes that the consultant and the client have mutually established and are carried out to the highest ethical standards in accordance with the laws and culture of the country within which the service is provided.

As with other professions, consultancy work is influenced by the larger social, economic, political, cultural and operational context within which it takes place. It is further shaped by the availability of resources (both human and financial), organisational processes and the presence of enabling and other factors (see Figure 1 below). The framework of core competencies for international health consultants that follows in Section Four has been developed with these influencing factors in mind.

**Figure 1.** Factors Influencing International Consultancy Assignment

- **Contextual/Operational Factors**
  - Cultural and social factors
  - Demographics
  - Epidemiology
  - Geopolitics
  - Historical perspectives, e.g. projects, services, etc.
  - Macro-economics/economics
  - Regulations (client and national)
  - Legislations (client and national)
  - Policy frameworks (client and national)

- **Client Factors**
  - Priorities and desired outcomes
  - Client commitment and stewardship
  - Capacity
  - Resource availability (financial and human)
  - Organisational processes

- **Enabling Factors**
  - Clarity of assignment
  - Specificity of goals and desired outcomes
  - Achievability of goals and desired outcomes
  - Motivation of stakeholders
  - Effective communication
  - Solid existing infrastructure
  - Risk management
The following presents a framework of core competencies for the international health consultant. The competencies can be applied to a broad range of professionals working in health (e.g. nurse, physician, dentist, pharmacist, nutritionist, social worker, educator, occupational therapist, policy expert/analyst, planner, economist, etc.).

The competencies are grouped under seven domains. Clusters of behaviours, skill and knowledge identified as essential to high performance/quality consultancy are provided for each of the core competencies identified in the framework.

The competencies are presented in a numbered format for ease of reference only; the numbering system is not intended to indicate a priority or order of importance. All core competencies are equally pertinent to the practice of international health consultation.

The seven domains are:

1. Client Context
2. Accountability
3. Ethical Practice
4. Legal Practice
5. Service Provision
6. Communication
7. Continuing Competence
1. **Competency Domain One: Client Context**

**Competency:** Demonstrates sound understanding of the cultural, social, economic and political environments within which the client operates.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is knowledgeable of the cultural, social, economic and political environment.</td>
<td>Collects, synthesises, interprets literature, data and other information and organises it in a logical manner.</td>
<td>Demonstrates an understanding of effectiveness and limitations of the health care system, the evolution of health care policy and the socio-political factors and competing interests that affect the delivery and quality of health care services in the country.</td>
</tr>
<tr>
<td>Is knowledgeable of demographic, morbidity and mortality data.</td>
<td>Draws accurate conclusions based on assessment of available information.</td>
<td>Considers the impact of morbidity, mortality, and other demographic and outcome data confronting the country or specific populations when making assessments, interventions and recommendations.</td>
</tr>
<tr>
<td></td>
<td>Identifies gaps in information needed to understand the client context.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Takes steps to acquire necessary information not present in data at hand.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Networks to validate resulting analysis of client/country context.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Formulates potential solutions that are congruent with the client’s aims, context and which are deliverable within the socioeconomic, technological and political climate and agreed timeline.</td>
<td></td>
</tr>
</tbody>
</table>
### 2. Competency Domain Two: Accountability

**Competency:** Is accountable to the client for the services rendered.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is knowledgeable about customary systems of reporting and accountability.</td>
<td>Undertakes risk assessment before taking action.</td>
<td>Demonstrates accountability for one’s own decisions and accepts responsibility for one’s own professional judgements, recommendations and services provided.</td>
</tr>
<tr>
<td>Is knowledgeable about the important concepts, elements, and methodologies that are involved in undertaking a risk assessment.</td>
<td>Recognises situations that are unsafe and identifies the actions needed to rectify them.</td>
<td>Demonstrates financial responsibility and accountability in the use of client resources and mitigates risks to such.</td>
</tr>
<tr>
<td></td>
<td>Establishes and maintains appropriate accountability (including financial) and reporting systems with client.</td>
<td>Recognises and adheres to the limits of own knowledge, competence and role.</td>
</tr>
<tr>
<td></td>
<td>Checks that own understanding of role and responsibilities correspond and are acceptable to client.</td>
<td>Takes appropriate action to safeguard oneself and others who may be at risk of injury or danger related to the consultation work, the conditions of the work environment or the socio-political climate that exists.</td>
</tr>
</tbody>
</table>
3. **Competency Domain Three: Ethical Practice**

**Competency:** Acts in an ethical manner in all interactions with, and on behalf of, the client.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is knowledgeable about human rights declarations and instruments (e.g. United Nations Universal Declaration of Human Rights and relevant professional declarations and statements) and reporting processes. Refer to the Annex for a list of professional declarations and statements by WHPA member organisations.</td>
<td>Values and takes appropriate action to safeguard human rights.</td>
<td>Upholds basic human rights and dignity at all times and reports observed violations as appropriate.</td>
</tr>
<tr>
<td>Is knowledgeable about professional codes of ethics, if applicable.</td>
<td>Able to apply and adapt ethical principles and codes of practice to different work settings and client needs.</td>
<td>Conducts oneself with honesty and integrity and in accordance with the published Code of Ethics of one's profession where such exists.</td>
</tr>
<tr>
<td>Is knowledgeable about information needs of clients and partners and about the legal and ethical rules for disclosures.</td>
<td></td>
<td>Deals with others in an open and honest manner.</td>
</tr>
<tr>
<td>Is knowledgeable about potential conflicts of interest.</td>
<td></td>
<td>Is sensitive to the client's culture, traditions and patterns of decision-making.</td>
</tr>
<tr>
<td>Is knowledgeable about ethical research conduct.</td>
<td></td>
<td>Presents own professional qualifications and credentials accurately.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Observes individual country requirements for conduct of research and obtains required clearance.</td>
</tr>
</tbody>
</table>

4. **Competency Domain Four: Legal Practice**

**Competency:** Understands and works with in legal and ethical parameters.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Understands professional and legal boundaries, roles and responsibilities in differing environments/contexts and in his/her home country.</td>
<td>Identifies and reports potential problems when contract is at specification phase.</td>
<td>Provides services in a manner consistent with the laws and regulations governing professional behaviour and practice in one’s home country and the client’s country.</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Provides advice and guidance that respect local laws, regulations, policies, standards and guidelines and his/her own ethical obligations.</td>
</tr>
</tbody>
</table>
5. Competency Domain Five: Service Provision

**Competency:** Renders services that reflect client need and capacity.

<table>
<thead>
<tr>
<th>Knowledge</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is knowledgeable of client’s assessed and expressed needs.</td>
</tr>
<tr>
<td>Is knowledgeable of various modes of teaching, precepting, coaching and mentoring.</td>
</tr>
<tr>
<td>Is knowledgeable about the specific environment that is the focus of the consultation — customs, work practices, relationships, modes of decision making, resource availability and utilisation.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Skills</th>
</tr>
</thead>
<tbody>
<tr>
<td>Engages in information/intelligence gathering and analysis in order to develop plans that reflect client need and capacity.</td>
</tr>
<tr>
<td>Gathers information from a range of sources to build a clear, accurate and comprehensive understanding of the client’s needs.</td>
</tr>
<tr>
<td>Clearly articulates roles and responsibilities of all parties involved.</td>
</tr>
<tr>
<td>Applies teaching/learning methodologies appropriate to the learning task.</td>
</tr>
<tr>
<td>Plans, implements and evaluates strategies to meet identified client needs.</td>
</tr>
<tr>
<td>Uses and develops where necessary appropriate evaluation tools.</td>
</tr>
<tr>
<td>Solves complex problems through accurate analysis and application of appropriate solutions.</td>
</tr>
<tr>
<td>Produces a critical path and identifies key decision points.</td>
</tr>
<tr>
<td>Values and engages in consultative planning and decision making.</td>
</tr>
<tr>
<td>Considers the impact of advice and services on the host culture and financial and human resources.</td>
</tr>
<tr>
<td>Possesses contract review and negotiation skills.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Addresses client need in light of the context and short and long term client capacity, including resources available.</td>
</tr>
<tr>
<td>Develops a mutually agreed plan and scope of work that responds to the client’s assessed and expressed needs and capacity to sustain recommended actions.</td>
</tr>
<tr>
<td>Establishes a system for regular review and assessment of progress.</td>
</tr>
<tr>
<td>Assists the client to define roles and responsibilities for all parties involved in the consultation activity.</td>
</tr>
<tr>
<td>With the client establishes concrete, measurable goals for the consultation, and strategies for ongoing evaluation of the results.</td>
</tr>
<tr>
<td>Refers the client to appropriate agencies, organisations or people when services beyond one’s abilities are requested or required.</td>
</tr>
<tr>
<td>Demonstrates well developed problem-solving, critical thinking and strategic planning skills.</td>
</tr>
<tr>
<td>Works to empower the client to act in an informed and skilled way on own behalf.</td>
</tr>
<tr>
<td>Facilitates inclusion of all key people in planning, monitoring and evaluation activities.</td>
</tr>
<tr>
<td>Prepares oneself with the business, contracts and negotiation skills that are necessary to the process of securing consultation work.</td>
</tr>
</tbody>
</table>
6. **Competency Domain Six: Communication**

**Competency:** Communicates effectively and builds positive relationships with and on behalf of the client.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Has knowledge of the client’s conventions for propriety, including any cross-cultural differences when communicating with individuals and groups.</td>
<td>Customizes and presents information to best meet the needs of the target audience.</td>
<td>Adheres to the client’s conventions for propriety, respect and polite behaviour.</td>
</tr>
<tr>
<td>Understands the dynamics of conflict and negotiation processes, how these dynamics manifest themselves and how to achieve solutions that are mutually acceptable.</td>
<td>Recognises, assesses and manages interpersonal conflict and acts to prevent or resolve it using a range of communication skills.</td>
<td>Interacts with individuals in a manner which is appropriate and in keeping with organisational culture.</td>
</tr>
<tr>
<td>Is knowledgeable about disclosure of information and matters of confidentiality.</td>
<td>Encourages and manages diverse perspectives constructively.</td>
<td>Uses precise, audience-sensitive and technically appropriate language when speaking with or presenting to others.</td>
</tr>
<tr>
<td></td>
<td>Engages self and client in exploring alternative ideas and solutions and generates, analyzes and evaluates options.</td>
<td>Identifies potential sources of conflict and uses effective negotiation and conflict resolution strategies to prevent problems and resolve differences.</td>
</tr>
<tr>
<td></td>
<td>Builds and maintains working relationships with sensitivity and respect for diversity.</td>
<td>Refrains from acting in conflicts that are outside the scope of the consultation.</td>
</tr>
<tr>
<td></td>
<td>Possesses good written and oral communication and listening skills.</td>
<td>Frames group discussions and activities in a style that reflects an awareness of the client’s culture, capabilities, and financial, human and legal constraints.</td>
</tr>
<tr>
<td></td>
<td>Demonstrates strong project management skills and organisational abilities.</td>
<td>Holds a non-judgemental, respectful perspective when confronted with disparate points of view, customs or ways of doing things.</td>
</tr>
<tr>
<td></td>
<td>Compiles and reports information in a clear, accurate and concise manner.</td>
<td>Writes clearly and cogently, using appropriate form and format for the writing activity at hand. Provides the client with a final written summary of the recommendations and actions taken on behalf of the consultation contract/commitment.</td>
</tr>
<tr>
<td></td>
<td>Differentiates between confidential and non-confidential information.</td>
<td>Provides the client with contact information for follow-up questions or referral services.</td>
</tr>
</tbody>
</table>
### 7. Competency Domain Seven: Continuing Competence

**Competency:** Assumes responsibility for life-long learning and continuing competence.

<table>
<thead>
<tr>
<th>Knowledge</th>
<th>Skills</th>
<th>Behaviours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is aware of the continuing licensure and/or certification requirements in one's profession and complies with requirements (where such exists).</td>
<td>Seeks out opportunities to enhance own professional knowledge and competence using a variety of strategies. Requests and accepts feedback and uses it to direct professional development and continuous learning opportunities supported by self reflection and/or critical event analysis.</td>
<td>Meets the requirements for continuing licensure and/or certification in one's profession (where applicable). Assesses on a regular basis the quality of own consultancy practice.</td>
</tr>
</tbody>
